

March

Volunteering: This year's dinner for members who have volunteered for the association was held at the end of February. The Board would like to take this opportunity to thank members who have taken their own voluntary initiatives to help the Association in various ways. The following can be mentioned as contributions:

- Member who many times during the year but also in the past helped to keep order in our environmental houses and helped to clean up garbage in our houses.
- Members who assisted at the fire on Larmv. 12b. They tried to extinguish the fire and called 112. With these efforts, the damage to our association was significantly limited.
- Member who has regularly contributed ideas on how the information sheet should be changed.
- Member who has driven several found gazebos to the recycling center. This is about us saving thousands of dollars instead of PARK having to solve it.
- Member who took on the task of raising and lowering the flag when no one else wanted to do it.
- Members who have taken on the task of adjusting the minutes and counting votes. An important task that the current board has chosen to visibly thank for. Something that was really needed at the last AGM.
- Member who took on the task of helping to refurbish our guest apartment.

BRF
Fredriksdal

- Member who works at Skanska and who has been a great resource with his experience in the construction industry in connection with the renovation of our facades and balconies.

The Board had also invited the following volunteers who unfortunately could not attend the dinner:

- Member who has been responsible for Bingo and card games for several years.
- Member who has been helpful in cleaning up our storage rooms and organized the removal of old bicycles.

The Board thanks all volunteers in 2024 and looks forward to all volunteer efforts in 2025. The requirement to be a volunteer is that the activity or event should benefit the association and its members and it should be known by the Board. We often ask for volunteers to help with different things: painting the guest apartment, leading walks, having regular activities in the party room, it could be language café, card games, bingo, or just Tuesday coffee. If you would also like to join the dinner (which we hope will become a tradition), please let us know what you would like to do.

Tip of the month: You do know that you are part of the national defense, right? In the nineties we phased out much of our civilian preparedness for war but as many people know I am active in the Red Cross and there we still have tasks in war. We have a mission to inspect and inventory who and how many prisoners of war we have, and we have a mission to inventory the children who are sent away in wartime.

We are now starting to send out the war posts again because the threats are greater than they have for a long time. Many of us are deployed at our workplace, but we will need help from voluntary organizations. If you are interested in being prepared for a task in total defense, it is a good idea to join a voluntary organization so that you already know what you are expected to be able to do. The Swedish Red Cross is one defence organization among many. But the tip is to join before something happens.

Complaints: there were complaints that we translated the information sheet into English and people wondered why we didn't just write in Swedish. This is about democracy and making sure that as many of our members as possible have access to information.

Port phone: Not all members can still manage their port phone. Many block unknown numbers but if you do this with the port phone number, it will unfortunately cost. You will have to pay Fire and Security SEK 1500 if they are to come out and "unblock" the number in your own mobile. **042-31 11 719** is the number the intercom calls from.

Environmental houses: Have you noticed that we have posted the days on which garbage is collected in the environmental houses? This is so that you can control when you throw away your waste. If the paper recycling is full, you can wait until after emptying and if you eat shrimp shells, you can freeze them and throw them away the same day you empty organically.

The Board provides information:

- The charging points in the parking lot at Larmvägen 14 are now installed and operational. Contact the board and provide your e-mail address if you want to create an account to charge your cars. If you have friends visiting, they can also charge, but you as a member must have an account. So arrange this in time if you know your friends drive on electricity. NOTE: Keep in mind that you are only allowed to use these spaces when charging your car. If you park here without using the charging posts, you risk being fined.
- We have now repainted and created two parking spaces for the disabled. Keep in mind that if you are going to stand in these places, you need a valid parking permit from the association AND a valid permit for people with disabilities issued by Helsingborg municipality.

- The new procedure for booking party rooms and overnight accommodation is now in place. If you want to book, put a note in the board mailbox or send an email to info.fredriksdal@gmail.com
- We are in the process of rebuilding our website and are looking for nice environmental pictures from our area. If you have a nice picture, please email it to the board.
- The removal of the fence at the football field will begin during week 10. The installation of the new fence and gates is planned to be completed in week 15. This also applies to the fence and gate at Larmv 2 that was decided on at the meeting.
- The Board has also decided to "divide" disturbing noises into two categories. 1: Renovation and craft work. 2: Other disturbing noises. Times for these categories will be posted in the stairwells.

From the meeting: The board has taken stock of which signs are redundant and will be taken down.

Order of new HSB emblems and order of fence and gate at "tvåan" is made.

Parking for the disabled has now been created and it has also been decided that, in addition to the so-called "handicap permit", a parking permit is also required from the association.

We have also decided that parking fines will be levied for misuse of disabled parking space and if you are in a "charging space" without charging in progress.

It is possible to put awnings on our new glazing. The price varies depending on how many people are interested and ranges from 18 617: - if they mount on 200 apartments to 30273: - if there is only one who wants it.

The color will be grey like the balcony and no building permit is required. If you want to wait and place an order later, the price will be at least 38000 (incl. VAT).

A form will be issued and we hope for a quick response.
